Less or equal to 8mm

iWALK[®]

UVC DISINFECTION

The ultraviolet wave-length is 250nm-280nm, it can destroy the DNA or RNA molecular structure of biological body cells, to create the growth cell death and regenerative cell death, to achieve the effect of sterilization and disinfection

✂ **Two sterilization mode:**

5mins fast mode and 10 mins standard mode for your choices

(1 tab on the power button for 5mins mode and 2 tabs for 10mins mode)

iWALK®

WIRELESS FAST CHARGING

Designed to fit a variety of phone sizes

✂ Wireless charging:

Just place your smart phone on top of the box and enjoy wireless charging up to 7.5W(iOS) and 10W(Android)

iWALK[®]

Aromatherapy Diffuser-Extra Freshness

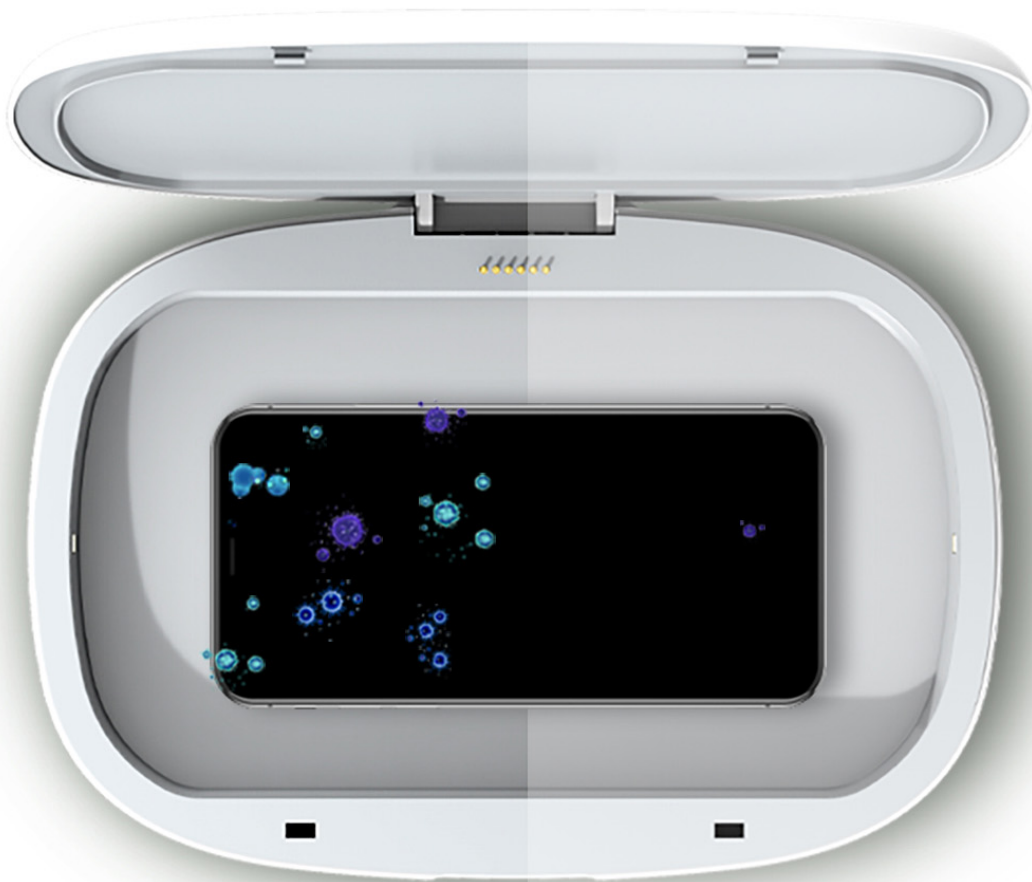

✂ Aroma disinfection:

With 1-2 drops of perfume into the aroma hole, you can enjoy the aroma disinfection

iWALK[®]

BEFORE AFTER

Once per day to kill bacterial and virus

✂ **Disinfection:**

Kill your non-washable personal items in up to 99.9% in 5-10 mins

✂ **Safe:**

With magnetic design to automatically turn off the ultraviolet light when the cover is open to avoid damage to the eyes by the ultraviolet light, and will automatically turn on when the cover is closed for sterilization.

iWALK[®]
